More about activities in this month

• Trainings & Workshops

Ivey Business Case - Workshop: This Workshop for *BBM 5th semester* students introduces international business cases to develop strategic thinking exposing students to real-world managerial challenges. It enhances analytical, decision-making, and presentation skills.

• Publication

Trinity Newsletter (Idea Hunt & Others): Trinity Newsletter is a collection of different events and activities including the Idea Hunt, trainings, workshops, seminars and other intra/inter college competitions. This publication reviews on all extra / co-curricular activities conducted during six months (during one semester) acknowledging the student-led events and their contributions.

• Events & Activities

Idea Hunt – Presentation & Expo Phase 5: This is the final phase of the IDEA HUNT. During these two days: 25-26 March 2026 (11-12 Chaitra 2082), participants are expected to present their final business plans in the competition which is a common platform for the students to showcase their final projects and innovations. Such events always encourage students with professional feedback and industry interaction.

More about activities in this month

• Trainings & Workshops

Basics of Research and Report Writing: This training is offered to BBM 2nd semester students to introduce fundamental research concepts and academic writing skills building a structured approach to data collection, analysis, and reporting. It prepares students for academic assignments, projects, and future research-based courses.

Audit Compliance Training -Tax, Business Registration: This training is designed for BBM 6th semester students to introduce audit compliance, taxation, and business registration procedures building awareness of legal and regulatory frameworks. It prepares students for compliance-related responsibilities in business.

Tally - GST, Reporting and Practical Application: This training is offered to BBM 4th semester students to provide practical knowledge of GST compliance and reporting using Tally software. The purpose is to familiarize students with taxation systems used in business. It enables students to prepare GST returns and statutory reports.

Cyber Crime & Ethical Hacking Workshop: The main focus of this workshop is to educate students about cybercrimes, laws, and ethical responsibilities, and to introduce ethical hacking concepts for digital protection. This workshop is designed for the senior semester students of BSc CSIT, BCA, BBS & BBM programs.

• Events & Activities

Hackathon Competition: This competition is a time-bound, collaborative event where people (programmers, designers, domain experts) rapidly develop innovative solutions or prototypes for specific problems. This is a continuous event that encourages rapid problem-solving through teamwork and technology enhancing coding, creativity, and time-management skills.

More about activities in this month

• Trainings & Workshops

CV/Resume Writing Workshop: This event is designed for the students who are approaching jobs or internship programs. The workshop aims at helping students create professional CVs and resumes for their readiness to job and internship applications.

Front-End Web Basics - HTML, CSS, JavaScript: This training is designed to introduce students to the fundamentals of front-end web development, enabling them to design and develop responsive, user-friendly websites using core web technologies.

Internal Case - Workshop: This Workshop for BBM 2nd semester students focuses on applying management concepts to structured business problems strengthening analytical and decision-making skills. It develops logical thinking, teamwork, and effective presentation of solutions.

Python Basics: It is a short term training course that aims to build a strong foundation in Python programming, enhancing logical thinking and problem-solving skills while preparing students for advanced applications.

Ivey Business Case Workshop: This workshop is designed for the students of BBM 6th & 8th semesters focusing on complex and integrative business cases that enhances the strategic and leadership competencies. It prepares students for professional and managerial decision-making.

Python with AI & ML Basics: This training is designed for the students of BSc CSIT & BCA 6th semesters to introduce them about the artificial intelligence and machine learning fundamentals using Python, enabling understanding of data-driven and intelligent systems.

Ivey Business Case - Workshop: It is offered to the students of BBM 6th semester students focuses on advanced case analysis strengthening strategic decision-making skills. It enhances critical thinking and professional presentation abilities.

• Events & Activities

Trinity Job Fair: This Fair is a common platform for the students of BSc BSc CSIT, BCA, BBM & BBS. This event helps to connect Bachelor's students with employers and recruiters providing the exposure to internships, jobs, and career pathways.

Summer Sports Week: Trinity organizes sports week twice a year: Winter Sports Week & Summer Sports Week. The Summer Sports Week is organized during 26-29 May 2026 (12 -15 Jestha 2083). This event aims at promoting physical fitness and healthy competition among students to strengthen teamwork, discipline, and sportsmanship.

Field Visit: This visit is organized for the students of BBM 4th semester aiming to provide exposure to functional business environments relevant to their coursework. It helps students observe organizational processes and managerial practices.

Projects & Internship

Internship Orientation & Support: This session is designed to guide students of BSc CSIT and BCA 8th Semesters in identifying, securing, and successfully completing internships. It prepares them to adapt to professional industry environments by equipping them with the necessary skills, knowledge, and practical insights required for workplace success.

Trainings & Workshops

Public Speaking & Professional Development Training: This training helps students in building confidence and effective communication skills among students. It also prepares them for professional and workplace environments.

Networking Basics - CISCO Workshop/Linux Basics: This workshop is designed for the students of BSc CSIT 4th semester to introduce them about fundamental networking concepts and Linux operating system basics that enable them to understand system infrastructure, command-line operations, and essential IT administration skills.

AWS Workshop for Next-Gen Technologists: This workshop introduces cloud computing and AWS services, enabling students to gain hands-on experience with cloud platforms and prepare for cloud-based careers.

Financial Literacy Training: This training is conducted for BBM 4th semester students to promote awareness of financial management concepts developing responsible financial behavior. It educates students on budgeting, savings, investments, and personal financial planning.

Introduction to IT Tools & Developer Workflow: This session is offered to the students of BSc CSIT 2nd semester to familiarize them with essential IT tools and standard developer workflows, promoting organized, efficient, and professional software development practices.

Git & Version Control Basics: This training is designed for the students of BCA 2nd semester. It helps to develop an understanding of version control systems by introducing Git concepts and commands, enabling students to manage code efficiently and collaborate effectively in software development projects.

Events & Activities

Data Center / IT Company Visit: This visit is designed for the students of BSc CSIT & BCA - 6th Semester to provide practical exposure to IT infrastructure and enterprise environments, helping students connect theoretical learning with industry practices.

Mindfulness and Stress Management: This session is conducted for BBM 8th semester students to promote mental well-being and stress management. The purpose is to support students during the transition from academia to professional life.

Well Being Session: This event is scheduled on 10 July 2026 (26 Ashadh 2083) that aims to promote mental health awareness and emotional resilience and to support stress management and overall student well-being.
